			manual form	21/08/23	annon	yes	yes	yes			it would be nice if hackney is also permitted to park at oadn wigston car parking places for at least 1hr free
			manual form	03/08/23	annon	yes	no	no			O&W do 0.00% of their work on the O&W Ranks and meter so the proposal rate is too low compared to the national levels, compared to the extremely strict vehicle licensing policy and age restrictions this fare increase will do nothing to pay for the transaction. The O&W taxi policy needs a complete overhaul, hybrid and electric cars need a increase in age limit and the licence fees currently are the highest in the leicester if not the UK. These need recusing if you want to help drivers increase the age limit, increase age of used vehicles and reduce the licence fees * BTW thank you for consulting, its welcome and helpful*
