Title: **External Audit Report on Certification of  
Claims and Returns**

Author: **John Dickson, Chief Financial Officer and Section 151 Officer**

---

## **1. Introduction**

This report summarises the findings from the External Auditors Certification of grants and returns 2013/14 Report. It includes the Auditors assessment of the Council's arrangements for preparing claims and returns. The report also provides brief information on any returns that have been amended or qualified.

## **2. Recommendations**

Members note the contents of the report.

## **3. Information**

The attached report from KPMG provides details of the External Auditors opinions on the processes adopted by the Council in respect of the management of its grant claims and returns. In 2013/14 the External Auditor reviewed the Council grant claims and returns with a total value of £25M. This included monies both paid over to the Government and received by the Council.

KPMG, the Council's appointed external auditor, is responsible for completing all aspects of the audit required for the certification of claims and returns. This includes delivering the annual report on certification work which is attached as an Appendix.

The Council has adequate arrangements for preparing its grants and returns and supporting the audit certification work. All grants and returns were submitted on a timely basis and had been correctly identified as requiring certification in line with the certification instruction index issued by the Audit Commission. The Council keeps adequate records in relation to grants and returns which were accurate and sufficient. New procedures have been put in place to increase the checking of the claims and suitable training given to staff which should mean that the returns are accurately returned to the Government in future.

The auditor has noted that a qualification adjustment was necessary in respect of the grant claimed for housing and council tax benefit for 2013/14. The claim was amended by £167. Overall the level of errors found are very

low compared to other Authorities. It should be noted that the total adjustment to the claim of £167 is in respect of over £25M worth of transactions. This means that overall accuracy of the grant claims returned for Benefits and Business Rates is around 99.999%. The capital receipts return was not amended and therefore did not need a qualification letter.

New staff in the Revenues, Benefits and Customer Services have introduced new procedures which have ensured that the errors in the housing and council tax benefit have been reduced.

In summary, the auditors thought that the Council has good arrangements in place for preparing its grant claims and returns. They also felt that the grant claim and return work had been undertaken in a timely manner and added that records and supporting bank claims and returns were accurate and sufficient.

#### 4. Financial Implications

The Audit Commission changed its fee regime for certifying grants and returns in 2013/14 and set an indicative fee for the Council of £9,152. KPMG's actual fee for the certification of grant and returns was £9,730. The difference was due to the new statutory requirement to certify the Housing Capital Receipts Return which was not included in the indicative fee.
