**Subject:** 19 Arndale

Dear Tracey,

May I offer my sincere apologies for not being able to attend this planning meeting but I would like to submit my reasons for asking that this application came to committee;

1. The history of this site shows a long record of refusals for a new access on to Newton Lane. How does this application address this problem?
2. The lack of provision for car parking for staff, visitors, large vehicles ie delivery vans and possibly ambulances. Would there be problems resulting in on road parking?
3. Will any access of large vehicles, ambulances be from Arndale Road and if so will this cause amenity harm for residents?

I am happy for this email to be read out at the Committee Meeting and your responses given.

Thank you

Regards Helen Loydall
