**8.5 Partnerships**

8.5.1 **Background**

Partnership working is becoming ever more central to effective modern local government. A range of issues need to be addressed to ensure that the Council has a consistent and rigorous approach to partnership working. There need to be clear processes and procedures to respond to the complexity of partnerships and their increasing importance in enabling the Council to deliver services efficiently, effectively and with propriety, in addition to fulfilling the Council's leadership role.

#### **8.5.2 Defining a Partnership**

The word "partnership" is used with increasing frequency in both the public and private sector and can mean many different things to different people. To make partnerships work effectively, they need to be differentiated from other joint arrangements such as funding regimes, contracts and informal relationships or networks.

A partnership has:

- (i) an agreed framework for jointly delivering common goals;
- (ii) shared risks and resources;
- (iii) identified added value and measurable impact; and
- (iv) shared accountability for outcomes.

#### **8.5.3 Creation of Partnership**

The creation of any new formal partnership must be approved, if constitutionally required, by the Council or as delegated.

#### **8.5.4 Local Guidance**

Regard should be had, as appropriate, to local guidance set out in the Council's "Guidance Note" and Partnership Toolkit.

Particular regard should be given to:

- (i) probity and risk;
- (ii) the status of the accountable body; and
- (iii) seeking timely legal advice, where necessary.
