1. Briefly describe its aims & objectives

Our Community Health and Wellbeing Plan for the Borough of Oadby & Wigston brings together a wide range of partners with the common purpose of improving the health and wellbeing of the local population. Forming partnerships between health and care organisations on a local footprint is key to planning and delivering joined up services to improve the lives of people who live and work in the area. By working together in collaboration, we have agreed a set of priorities that all partners across Oadby & Wigston Borough recognise and support. We remain committed to making a real change by focusing on these key priorities and tackling health inequalities which are present within our population. This plan recognises and acknowledges the importance of creating engaged and cohesive communities by building trust and gaining a deeper understanding of their needs if we are to make a difference.

2. Are there external considerations?

e.g. Legislation/government directive etc

In January 2021, the Department for Health and Social Care (DHSC) published proposals through the White Paper: 'Integration and Innovation: Working together to improve health and social care for all', to develop the NHS long term plan and bring forward measures for statutory Integrated Care Systems (ICS). The ICS for Leicester, Leicestershire and Rutland (LLR) was established in July 2022.

As part of the ICS's requirement for the development of a Place Based Plan, a Joint Health and Wellbeing Strategy (JHWS) has been created, which sets out the strategic vision and priorities for health and wellbeing across the county of Leicestershire over the next ten years.
