Investment Strategy (2025/26 – 2027/28)</li> <li>6. Flexible Use of Capital Receipts Strategy (2025/26)</li> </ol>

## **1. Introduction**

- 1.1 The Local Government Act 2003 and supporting regulations require the Council to 'have regard to' the Chartered Institute of Public Finance and Accountancy (CIPFA) Prudential Code and the CIPFA Treasury Management Code of Practice and to prepare, set and publish a Capital Strategy including prudential indicators, and a

Treasury Management Policy, Treasury Strategy and Plan including treasury indicators that ensure the Council's capital expenditure plans are affordable, prudent and sustainable in the long-term.

- 1.2 The prudential indicators consider the affordability and impact of capital expenditure plans and set out the Council's overall capital framework. The prudential indicators summarise expected treasury activity, introduce limits upon that activity and reflect the underlying capital programme. As a consequence, a Treasury Management Strategy is prepared which considers the effective funding of the capital expenditure decisions and complements the prudential indicators.
- 1.3 The Council is required to operate a balanced budget, meaning that cash raised during the year will meet cash expenditure. As part of this, the treasury management operation is to ensure that this cash flow is adequately planned, with cash being available when it is needed. Surplus moneys are invested in low-risk counterparties commensurate with the Council's low risk appetite, providing adequate liquidity initially before considering investment return. The Council is required to calculate its budget requirement for each financial year to include the revenue costs that flow from capital financing decisions. This, therefore, means that increases in capital expenditure must be limited to a level whereby charges to revenue remain affordable within the projected income of the Council for the foreseeable future. These increases in charges may arise from increases in interest charges and debt repayment caused by increased borrowing to finance additional capital expenditure and any increases in operational running costs from new capital projects.
- 1.4 Treasury Management is, therefore, an important part of the overall financial management of the Council's affairs. Treasury Management is defined as: "The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risk associated with those activities; and the pursuit of optimum performance consistent with those risks."
- 1.5 Specific treasury indicators are prepared and included in the Treasury Management Policy and Strategy which also requires Member approval.
- 1.6 The Annual Investment Strategy for Treasury Management investments, sets the limits for the maximum amounts to be invested and the types of investments the Council may consider.
- 1.7 The Minimum Revenue Provision statement states how the Council will charge revenue for capital expenditure, which is financed by borrowing or credit arrangements. Local Authorities are required each year to set aside some of their revenues as provision for this debt. This was revised in November 2023.
- 1.8 The Council's capital and treasury activities are strictly regulated by statutory requirements and guidance, including the CIPFA Prudential Code for Capital Finance in Local Government, CIPFA Treasury Management Code of Practice, Department for Levelling Up Housing and Communities (DLUHC) Investment Guidance and DLUHC Minimum Revenue Provision (MRP) Guidance.
- 1.9 Full Council is required to approve the Capital Strategy and Treasury Management Policy statement for the forthcoming year at or before the start of the year.
- 1.10 Annual reporting to the Policy Finance and Development Committee (PFD) is required on the activities of the treasury management operation and on the exercise of the Section 151 Officer's delegated treasury management powers.

## **2. CAPITAL STRATEGY, TREASURY STRATEGIES AND PRUDENTIAL INDICATORS 2025/26**

2.1 The following strategies are attached as appendices for PFD to recommend to Council on the 20<sup>th</sup> of February for approval:

- Appendix 1 – Capital Strategy (2025/26) which includes the Prudential Indicators (2024/25 – 2029/30)
- Appendix 2 – Treasury Management Policy (2025/26)
- Appendix 3 - Treasury Management Strategy (2025/26) which includes the Treasury Management Indicators (2025/26 - 2029/30)
- Appendix 4 – Minimum Revenue Provision (MRP) Statement (2025/26)
- Appendix 5 – Investment Strategy (2025/26)
- Appendix 6 – Flexible Use of Capital Receipts Strategy (2025/26)

The values within these strategies align with the revenue and capital budgets. Changes in capital and treasury indicators will be reported to PFD on a quarterly basis. All changes to the budgets that impact on the strategies will be agreed with the Section 151 Officer in consultation with the Chair of Policy, Finance and Development Committee.
