This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes a series of sector updates in respect of emerging issues which the Committee may wish to consider.

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications:

<https://www.grantthornton.co.uk/industries/public-sector/local-government/>

If you would like further information on any items in this briefing or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress to June 2025

Financial Statements Audit

Our Audit Plan was presented to the April 2025 Audit Committee. As planned, our work on the audit commenced earlier in the year with allocations in February and April. During this time, we completed the majority of our audit planning work and made progress on advanced testing with the support of the finance team at the council.

We received draft accounts with supporting working papers from management on 20 June 2025. We will complete our initial reviews prior to commencing audit work in August 2025 and will continue to work closely with the finance team through this period.

Value for Money

As part of our planning work, we aimed to identify any risks of significant weakness in the Council's arrangements for securing economy, efficiency and effectiveness in its use of resources that we need to perform further procedures on.

In the Audit Plan presented to Audit Committee in April 2025 we reported one risk of significant weakness relating to financial sustainability.

We will continue to monitor and update our risk assessment and responses until we issue our Auditor's Annual Report.

We will also follow up on any recommendations made as part of prior year reporting.

Events

We provide a range of workshops and network events. On 4 June 2025 we held a webinar providing updates on local government re-organisation and devolution; and lessons from our 2023/24 value for money audits. A recording of the event is available here:

[Webinar: local government devolution and reorganisation - YouTube](#)

Audit Fees

PSAA have published their scale fees for 2024/25 [2024/25 audit fee scale – PSAA](#)

For Oadby and Wigston Borough Council these fees are £145,193 for the Council audit. These fees are derived from the procurement exercise carried out by PSAA in 2022. They reflect both the increased work auditors must now undertake as well as the scarcity of audit firms willing to do this work.

Local Audit Reform

On 9 April 2025, the government published [Local audit reform: Government response to the consultation to overhaul local audit in England - GOV.UK](#)

Recognising that a backlog in local audit sign off of nearly 1,000 audits had impacted on local accountability and transparency, the purpose of the consultation was to rebuild a system of local audit, ensuring that audited accounts are published on time and that trust and confidence in how councils are spending their money is restored. Grant Thornton welcomes the reforms which we believe are much needed.

The key outcome of the consultation is the decision to proceed with the establishment of a new Local Audit Office (LAO) with effect from 1 April 2026. Further details are set out below.

Local Audit Office – Core Principles

Value for Money: providing confidence for stakeholders that proper arrangements are in place

Transparency of the sector's financial health and VfM arrangements

Capacity and capability: A sustainable and resilient audit market with access to the right expertise

External scrutiny which challenges and drives improvement

Professionalism: building a sector attractive to auditors

Proportionality: local audit that is proportionate and relevant, from regulations to governance

Stronger accountability: high standards of financial reporting to promote public accountability

Timely: High quality accounts which are produced on a timely basis.

Impacts for local authorities

- A mandatory requirement for at least one independent Audit Committee member at each authority
- Mandatory reporting of the Auditor's Annual Report to full Council
- The introduction of a Local Public Accounts Committee, following the central government model
- The strengthening of Internal Audit capacity.

Audit Deliverables

Below are some of the audit deliverables planned for 2024/25

2024/25 Deliverables	Planned Date*	Status
<p>Audit Plan</p> <p>We are required to issue a detailed audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Council’s 2024/25 financial statements.</p>	April 2024	Complete
<p>Audit Findings Report</p> <p>The Audit Findings Report will be reported to the Audit Committee.</p>	November 2025	Not yet due
<p>Auditors Report</p> <p>This includes the opinion on your financial statements.</p>	November 2025	Not yet due
<p>Auditor’s Annual Report</p> <p>This report communicates the key outputs of the audit, including our commentary on the Council's value for money arrangements.</p>	November 2025	Not yet due

Sector Updates

Reorganisation update

March 2025:

Twenty-one two tier areas were invited by the Minister of State for Local Government and English Devolution to submit interim plans for reorganisation by 21 March 2025. Councils were asked to **“make every effort to work together to develop and jointly submit one proposal”** for each area. Finding the consensus necessary to achieve this has been a challenge though.

The [Local Government Chronicle](#) reports that the Minister received in reply at least 40 separate local government reorganisation (LGR) interim plan submissions; outlining across the replies at least 53 separate LGR options. From the replies, none of the 21 areas had agreed a final geography for new unitary councils.

Expected next steps:

26 September 2025 - Deadline for areas in the Devolution Priority Programme to submit final proposals for reorganisation.

28 November 2025 - Deadline for all other areas to submit final proposals for reorganisation.

Recommended reading:

For these challenging times, three sets of material **and our forthcoming webinar** from Grant Thornton may be useful:

September 2024 - [Learning from the new unitary councils](#)

March 2025 - [Navigating the future: The dual challenge of local Government reorganisation and devolution | Grant Thornton](#)

March 2025 - [Dual delivery - How can areas successfully reorganise local government and implement devolution at the same time?](#)

Making decisions

With so much changing in local government, and across the UK economy, making good decisions has perhaps never been more important. Two recent major publications on decision-making for mayoral combined authorities and public sector mega-projects both include content that may be useful for strategic and complex decision-making at other levels of government.

Strategic decision-making:

The Institute for Government published advice in March 2025 on [“How the government can support better decision making in mayoral combined authorities”](#).

To enhance capacity and accountability for strategic decisions, councils need to:

- Provide good technical and administrative resource to ensure that the plans members are voting on are well designed.
- Consider utilising digital tools for community engagement.
- Embed participatory processes, including peer research projects, to inform and support policy making.

Complex decision-making:

The National Audit Office published a report in March 2025 on: [Lessons learned: Governance and decision-making on mega-projects](#)

To improve decision-making for the most complex projects, Councils need to:

- Adopt governance arrangements that reflect the main risks to delivery and to achieving value for money.
- Map out the decision pathway, setting out which decisions will need to be made when, and by whom.
- Ensure those charged with governance over complex projects have the skills, qualification and experience needed to make decisions on the projects.

Homelessness

In May 2025, a new report by the Institute for Government highlighted how local authority spending on homelessness has nearly trebled in real terms over the last 14 years, and yet the number of homeless people has continued to rise, now reaching record proportions:

Local authority spending on homelessness in real terms (2024/25 prices):

- 2010/11: £1.3 billion.
- 2024/25: £3.1 billion.

Local authority median spend on homelessness as a % of all median spend:

- 2010/11: 18%.
- 2023/24: 54%.

Changes in the level of homelessness:

- 2010/11 to 2024/25: More than doubled.
- September 2024: 126,040 households living in temporary accommodation.

The Institute for Government (IFG) highlights that we need to focus not just on how much is spent, but also on what we spend it on. Local authorities often end up spending most of their budget, plus homelessness prevention grants and rough sleeper grants, on acute responses to homelessness. These are often exorbitantly expensive and come at the cost of underlying prevention work. IFG suggests also that individual local authorities work at too small a scale to tackle the extent of the homelessness problem – and that stronger place-based approaches are needed.

A recent report by the [Local Government Chronicle](#) looks at a similar issue through a different lens, suggesting that stronger investment in counter fraud would help slash some of the escalating spend on temporary accommodation.

Although they come at the issue of spend on homelessness from different angles, both reports indicate that challenging **how** the budget is spent, **and on what**, is more important than simply asking what the budget is.

Housing targets and housing enquiry

Figures from the [Office for Budget Responsibility](#) on 26th March 2025 indicate that changes to the planning system mean that housebuilding is at a 40-year high and that 1.3 million new homes will be built across the UK by the end of this decade.

Provisional figures from [Homes England](#) on 20th May 2025 suggest that the agency exceeded its overall targets for new housing starts and completions in 2024/25, for the second year running.

Nevertheless, the government continues to look at even more new ways of opening-up housebuilding and development activity. The UK parliament is now calling for evidence from anyone who can contribute to an enquiry around the effectiveness of the current system for developer contributions.

In 2022/23, some 44% of affordable housing was provided through Section 106 agreements. Parliament wants to consider whether:

- The current system is understandable and accessible to stakeholders;
- Local Planning Authorities are receiving the correct support from MHCLG to ensure they can efficiently and effectively collect and spend developer contributions;
- The Ministry of Housing, Communities and Local Government's (MHCLG's) oversight of the system is effective; and
- MHCLG can learn and apply lessons to the process.

A [National Audit Office](#) report on the Section 106 system is due out in the summer. In the meantime, the deadline for providing evidence to the enquiry is 16th June 2025.

If you want to contribute to the enquiry, please give your evidence here:

[Call for Evidence - Committees - UK Parliament](#)

National Audit Office

The remediation of dangerous cladding

[The Committee of Public Accounts](#) (PAC) reported in March 2025 that progress in establishing the number of buildings affected by dangerous cladding, and in remediating those with dangerous cladding, has been far too slow.

PAC described hearing how local authorities' enforcement work is facing issues of funding; skills; lack of clarity over the money available; and lack of clarity over the regulatory environment. PAC noted that local authorities are trying to train Environmental Health Officers to undertake enforcement activity as quickly as possible, but are at risk of losing them as soon as they qualify to other parts of the construction sector. PAC also stated that the government accepts that where local authorities are spending on cladding enforcement activity, they can't spend the same money on new social housing.

[MHCLG](#) did commit to providing more funding for remediation action, and an update on their plan to do so is due in the summer of 2025. Money alone is unlikely to be enough to speed things up though. As MHCLG itself recognised, there are not enough trained enforcement officers available to speed up identification; and, even if there were, there is insufficient skilled construction capacity to speed up remediation.

Eight years on from the Grenfell fire, the national issue of what to do about cladding still seems to be shrouded in uncertainty.

"We are appalled that those living in affected buildings continue to suffer an unacceptable financial and emotional toll. Far too many people continue to feel trapped in unsafe homes, many facing financial uncertainty and many unable to sell their homes and move on with their lives".

Complaints data from the Local Government and Social Care Ombudsman

Local Government &
Social Care
OMBUDSMAN

Annual 2024/25 complaints statistics have just been published for each Council by LGSCO: [Your council's performance](#).

This is an earlier publication date for the statistics than in other years – because the Ombudsman is responding to requests that the timetable be made to fit better with Council complaint reporting cycles. LGSCO has also responded to Council requests by including absolute numbers in the data, so that the emphasis is shifted away from percentages (in upheld, satisfactory remedies and compliance) and better context is given.

A very clear traffic light rating system has been adopted – and both Councils and residents will be able to see immediately how well their area fares.

Complaints data is an important tool for judging where energy needs to be directed for risk and performance management. Context and proportion are important as well though for judging overall performance; and earlier data is generally more useful than later data. The improvements made this year to timing and presentation will help Councils and their members make the most of the valuable resource that LGSCO provides.

Climate change - new role for the Energy Ombudsman

The Energy Ombudsman took on a new role on 1 April 2025, as the official dispute resolution body for Great Britain's heat network customers.

The [Association for Decentralised Energy \(ADE\)](#) estimates that heat networks, are projected to unlock £100 billion in UK infrastructure investment by 2050, while at the same time cutting carbon emissions. The sector is poised to play a central role in the UK's net-zero transition.

ADE estimates that most consumers are happy with the experience they have of using heat networks. Nevertheless, having an official ombudsman role boosts the credibility of the industry.

As major providers in the field, Councils do need to be aware of the new dispute resolution arrangements. The Ombudsman invited providers to register with them in the run up to 1 April. Anyone who has not done so yet, should register now so that they can keep abreast with the changes ongoing.

Climate change – new report on generating hope

Great British Energy recently announced £10 million of funding for a local government partnership to build clean energy power.

We know that each mayoral strategic authority in England will be invited to apply for a share of the funding, but there is little other detail available yet.

Localis have shared thoughts on how Great British Energy and the metro mayors can build clean power in every part of the country, starting with four simple steps:

- Provide robust data and measurement mechanisms for monitoring and evaluation.
- Target quantifiable benefits to local communities.
- Develop financial instruments such as Community Municipal Investments and Green Bonds to help support local communities.
- Embed Green Public Procurement in their procurement of energy services and utilities.

“Generating Hope: Local Power in Partnership”

Webinar for Audit Committee members

We held a webinar for members of Audit Committees on 4th June 2025.

Delivered by Grant Thornton specialists and drawing on experience from across the sector, the webinar covered: How to prepare for devolution and reorganisation; and shared experiences from other reorganisations - with a focus on:

- Learning from the recent formation of eight new unitary councils between 2019 and 2023
- Progress by the eight new unitary councils in 2023/24
- How to successfully reorganise local government at the same time as implementing devolution
- Project management lessons learned for reorganisation
- Performance measurement lessons learned for reorganisation
- Governance lessons learned for reorganisation
- Other relevant findings from Auditors Annual Reports for 2023/24.

The recording of our webinar can be accessed here: [Audit committee webinar](#).
